

Let's Get
MOVING!

Ride and Go

Get there and back with ease!

In today's highly mobile world, a car represents freedom and independence. When driving or taking public transportation is no longer an option, seniors aging at home can feel isolated. Our friendly door-through-door service gets you where you need to go, relaxed and on time.

About the program:

Ride and Go offers transportation services provided by volunteer drivers, that enables seniors and the disabled to maintain their independence.

Live well.
Age well.

Who is eligible?

Seniors 60+ aging at home and the disabled who do not drive, have access to transportation, or are unable to use public transportation.

How it works:

We offer two programs under Ride and Go:

Transportation Reimbursement: This program empowers riders to recruit their own drivers and schedule their rides directly with their drivers at times that work for both parties. Each driver receives reimbursement for miles driven. Available in Los Angeles and San Bernardino Counties for older adults and people with disabilities.

Volunteer Drivers: This program allows riders to connect with a volunteer driver. Whether to the doctor, the grocery store, or lunch with friends, our volunteer drivers provide safe and reliable transportation to older adults and the disabled. Mileage reimbursement and secondary auto insurance provided. Available in Los Angeles County only.

Who benefits:

This is an important service for older adults and the disabled who are unable to take public transportation but need a way to get to medical or personal appointments.

Thank you to our partner agencies Los Angeles County Metropolitan Transportation Agency and OmniTrans.

My driver, Jackie, is a lifesaver. I can't express how very much I appreciate her and AgingNext. She is always on time and helpful.
